Youngson CC, Grey NJA and Martin DM, *In vitro* marginal microleakage associated with five dentine bonding systems and associated composite restorations, 203

Subjects

Abnormalities
teeth, anatomy, race, 216
Abrasion
partial dentures, retention, composite resins, 198
Adaptation
calcium hydroxide, composite resins, 276
Adrenaline
anaesthesia (local), 221

Adverse effects
lasers, enamel, dentine, pulp, 24
lasers, pulp, 31
Aetiology
caries, survey, 37
caries, 190
caries, preschool child, 300
Amalgam
clinical performance, application, 49
polyalkenoate (glass ionomer) cements, posterior composites, clinical trial, 243
Anaesthesia (local)
adrenaline, 221
Anatomy
teeth, race, abnormalities, 216
Application
amalgam, clinical performance, 49
Assessment
marginal leakage, technique, 142
trigeminal nerve, function, 137

Barriers
elderly people, dental needs,236
Blood plasma
fluoride, monitoring, 59
Bond strengths
polyalkenoate (glass ionomer) cement, liners, 271

Calcium hydroxide
composite resins, adaptation, 276
Candida albicans
dentures, stomatitis, 102
Caries
aetiology, 190
aetiology, survey, 37
fluoride, preschool child, 304
preschool child, 296, 325
preschool child, aetiology, 300
preschool child, trends, 291
prevention, diet, preschool child, 308, 318
radiography, diagnosis, 130
Cariogenicity
enamel, technique, 54
Ceramics
review, 227
Clinical performance
amalgam, application, 49
Clinical trial
polyalkenoate (glass ionomer) cements, posterior composites, amalgam, 243
Composite resins
technique, fatigue testing, 158
partial dentures, retention, abrasion, 198
dentine bonding systems, microleakage, 203
dentinal bonding, restorations, technique, 263
calcium hydroxide, adaptation, 276
Cross-infection
laboratory (dental) procedure, pumice, 281

Dental materials
physical testing, standards, 90
Dental needs
elderly people, barriers, 236
Dental personnel
occupational injuries, 258
Dental practice
gloves (non-sterile), review, 79
preschool child, treatment, 315
Dental radiography
radiation protection, panoramic radiography, 171
Dentinal bonding
composite resins, restorations, technique, 263
Dentine
lasers, enamel, pulp, adverse effects, 24
Dentine bonding systems
composite resins, microleakage, 203
Denture assessment
variability, 98
Dentures
stomatitis, *Candida albicans,* 102
Development
poly(methylmethacrylate), physical testing, 151
Diagnosis
caries, radiography, 130
Diet
mastication, partially edentate, 185
caries, prevention, preschool child, 308, 318

Elderly people
dental needs, barriers, 236
Enamel
lasers, dentine, pulp, adverse effects, 24
cariogenicity, technique, 54
Evaluation
local anaesthesia, instrumentation, 163

Facial skin temperature, 250
Fatigue
materials, wear, 209
Fatigue testing
composite resins, technique, 158
Fluoride
blood plasma, monitoring, 59
caries, preschool child, 304
Function
trigeminal nerve, assessment, 137

Gloves (non-sterile)
dental practice, review, 79

Headaches
migraine, splints, treatment, 123
Hospital service
preschool child, treatment, 321
Hypnotics
sedation, reversal, 113

Instrumentation
local anaesthesia, evaluation, 163

Laboratory (dental) procedure
cross-infection, pumice, 281
Lasers
enamel, dentine, pulp, adverse effects, 24
pulp, adverse effects, 31
Liners
polyalkenoate (glass ionomer) cements, microleakage, 107
polyalkenoate (glass ionomer) cements, bond strengths, 271
Local anaesthesia
instrumentation, evaluation, 163
Local anaesthetic
pharmacology, 254

Marginal leakage
assessment, technique, 142

Mastication
partially edentate, diet, 185
Materials
fatigue, wear, 209
Microleakage
polyalkenoate (glass ionomer) cements, liners, 107
dentine bonding systems, composite resins, 203
Migraine
headaches, splints, treatment, 123
Monitoring
fluoride, blood plasma, 59
Mouthwashes
properties, 147

Occupational injuries
dental personnel, 258

Panoramic radiography
radiation protection, dental radiography, 171
Partial dentures
retention, composite resins, abrasion, 198
Partially edentate
mastication, diet, 185
Pharmacology
local anaesthetic, 254
Physical testing
dental materials, standards, 90
poly(methylmethacrylate), development, 151
Poly(methylmethacrylate)
physical testing, development, 151
Polyalkenoate (glass ionomer) cement
liners, microleakage, 107
posterior composites, amalgam, clinical trial, 243
liners, bond strengths, 271
Posterior composites
polyalkenoate (glass ionomer) cements, amalgam, clinical trial, 243
Preschool child
caries, 296, 325
caries, aetiology, 300
caries, fluoride, 304
caries, prevention, diet, 308, 318
caries, trends, 291
dental practice, treatment, 315
hospital service, treatment, 321
Prevention
caries, diet, preschool child, 308, 318
Properties
mouthwashes, 147
Pulp
lasers, enamel, dentine, adverse effects, 24
lasers, adverse effects, 31

Pumice
cross-infection, laboratory (dental) procedure, 281

Race
teeth, anatomy, abnormalities, 216
Radiation protection
dental radiography, panoramic radiography, 171
Radiography
caries, diagnosis, 130
Restorations
composite resins, dentinal bonding, technique, 263
Retention
partial dentures, composite resins, abrasion, 198
Reversal
sedation, hypnotics, 113
Review
gloves (non-sterile), dental practice, 79
ceramics, 227

Sedation
hypnotics, reversal, 113
Splints
migraine, headaches, treatment, 123
Standards
dental materials, physical testing, 90
Stomatitis
dentures, *Candida albicans*, 102
Survey
caries, aetiology, 37

Technique
enamel, cariogenicity, 54
marginal leakage, assessment, 142
composite resins, fatigue testing, 158
composite resins, dentinal bonding, restorations, 263
Teeth
anatomy, race, abnormalities, 216
Treatment
migraine, headaches, splints, 123
dental practice, preschool child, 315
hospital service, preschool child, 321
Trends
caries, preschool child, 291
Trigeminal nerve
function, assessment, 137

Variability
denture assessment, 98

Wear
materials, fatigue, 209
